1. The drawings are objected to because Figure 7 does not show reference numeral 70 as mentioned in the specification. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Art Unit: 2879

2. This application is in condition for allowance except for the following formal matters: Drawings objection as mentioned above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

3. Claims 1-20 are allowed over prior art of the record since prior art of the record does not disclose applicant's claimed:  
(a) front filter installed on a front surface of a panel, including a touch screen for generating a coordinate signal with respect to a touch point; or (b) plasma display apparatus including: a panel, an upper substrate, a lower substrate, a chassis base, a back cover, a front cover and the earlier mentioned front filter.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kazumasa et al (JP 10-163671), Varaprasad et al, Bell et al, Kiguchi et al, SdakuradaFujimoto and Ahn et al each are cited for showing general structure of a touch screen of a display device.
